**Secure and Slip-proof**

Its enormous tensile strength and excellent elasticity are what make sanstrap® the clever assistant in warehouse operations.

Less Waste

With sanstrap® up to 90% less waste is produced in comparison to conventional stretch wrap.

No Damage to Your Packaged Goods

Your advantage compared to adhesive tape: The packaging and labels are not damaged.

So Easy to Use

Using sanstrap® is child's play and lots of fun too – with no extra equipment required.

Sanstrap Stretchbands are the secure and cost effective alternative to stretch wrap, adhesive tape, rubber bands, wrapping bands, pack twine and all the rest. They work well for all you international transport and logistical operations and will keep all kinds of packaged goods safe and secure. Sanstrap is available in a range of different widths and lengths. We even have product versions with special properties, such as colored or anti-static .surface protection. We are happy to advise you on the best solution to your individual requirements

STEP 1:

Pull the Stretchband from the roll and tear it off the perforated seam

STEP 2:

Pre-Stretch the sanstrap a little and open the band to form a loop

STEP 3:

Now simply stretch the band around the packaged goods

STEP 4:

And you are finished! Quickly stretched and just as quickly secured.
